№ 34/CIRC/MSD

27 / December / 2019

To: All ships entering to Georgian ports

Subject: Precautions against the funnel smokes and sparks

All ships arriving to Georgian ports are requested to implement relevant precautions against the funnel smoke and sparks. Ships burners, tubes, uptakes, exhaust manifolds and spark arresters shall be maintained in good working condition.

Boiler tubes should be soot blown prior to arrival to the port. Pre-arrival soot blowing must be logged in the deck or Engine log book. Boiler tubes shall not be soot blown when the vessel is in port, as well as any emission of funnel sparks or heavy smoke is to be avoided.

Noncompliance to this requirement may become a subject of penalty or unplanned inspection by the PSC.
